

TWCARMF 2025 SAFETY AWARDS

What began in 1988 with the goal of empowering TWA members to take control of their insurance and risk management, has now blossomed into 37 years of great coverage and dedicated service. As many members can attest, the Fund not only provides stability in coverage and rates but also collaborates with our members to develop robust safety and loss prevention programs that enhance our members' operations.

Each year it is truly rewarding to see the bar for the Fund's award recognition set even higher as members continue to improve their safety records. At the Fund's Annual Meeting, we honored the award recipients for their effective safety and loss prevention programs and commended them for their commitment to providing safe work environments for their employees and the public. Representatives from each honored member came forward to receive their award.

The Fund has awards recognizing outstanding safety records in workers' compensation, liability, and workers' compensation and liability combined.

Outstanding Safety Record in Liability:

This award recognizes the member with the best liability loss history in General Liability, Automobile Liability, and Errors and Omission. With the lowest loss rate compared to other Fund members, this year's winner is:

**Colorado River Municipal Water District
Cole Walker, General Manager**

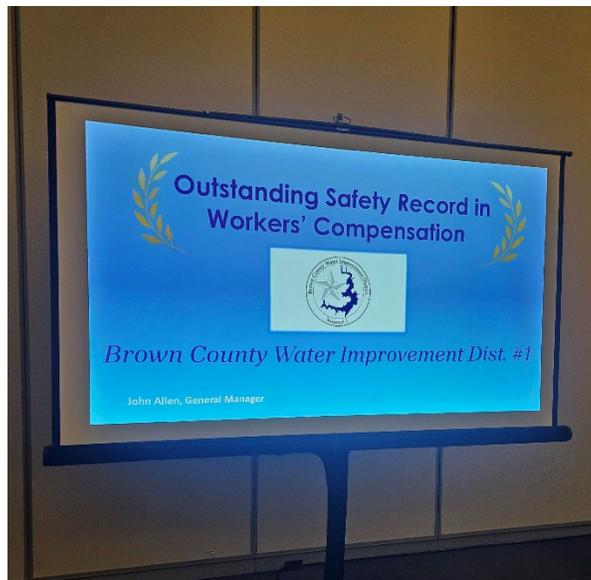

Outstanding Safety Record in Workers' Compensation:

This recognition is awarded to those members that have sustained the best loss rate over three years of Workers' Compensation losses per \$100.00 of payroll. This year, we have 2 (two) winners. One in the large member category and one in the small member category. The winner in the large member category is:

**Brazoria Drainage District #4
John Genaro, Superintendent**

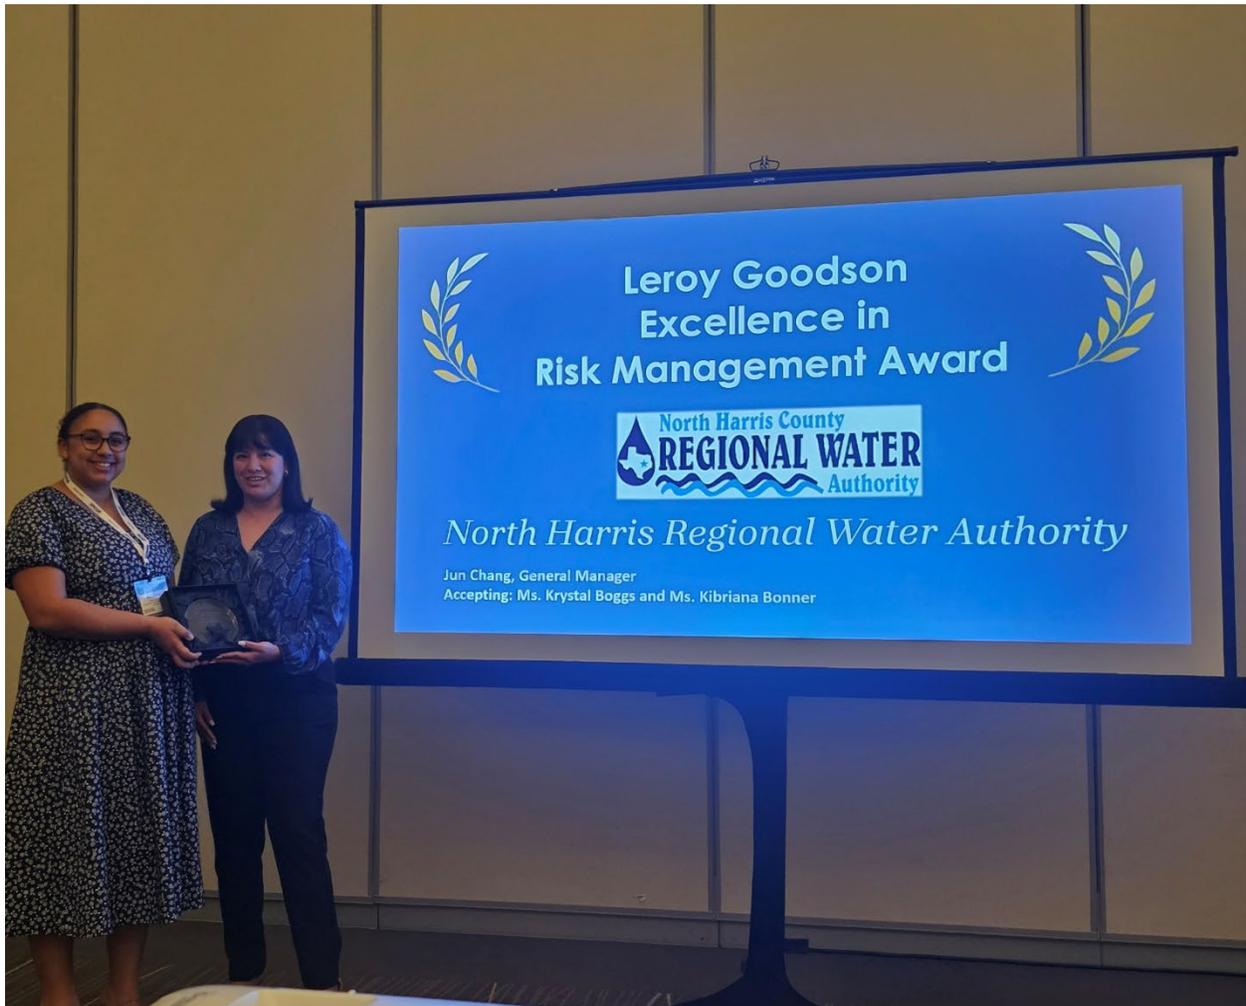

The 2nd award for the winner of the Outstanding Safety Record in Workers Compensation in the small member category is:

**Brown County Water Improvement District #1
John Allen, General Manager**

Leroy Goodson Excellence in Risk Management Award:

The Fund Board named our top annual award after TWA’s previous general manager who led the effort to create the risk management fund and served as our Board Secretary for 28 years. He was a strong advocate for safety in all water district operations. This award recognizes the Fund member for achieving excellent experience in both workers’ compensation and liability over the past four years. This year, The Fund’s most prestigious award, the Leroy Goodson Excellence in Risk Management Award goes to:

**North Harris County Regional Water Authority
Jun Chang, General Manager**

The Fund Board and staff commend each of these members for their remarkable accomplishments.
